

GOLF COURSE MIXES & SANDS

Quality products,
exceptional service.

Plaisted
Companies
INCORPORATED

The right mix of quality and service.

Plaisted Companies is the largest, full service golf supplier in the Midwest. We are unique in that we own our own sand and peat supplies, allowing us to control product quality from processing and screening through to the final mix.

Our mixes meet USGA guidelines and are produced using our Accublender™ 4-bin computerized mechanical blender.

GOLF COURSE TOPDRESSING SANDS & MIXES

Choose from any topdressing sands below or create your own mix. Plaisted topdressing sands meet USGA guidelines and are available in green pigmented and can be dried to meet your specifications. We can blend any combination of materials to meet your individual needs. For instance, create a topdressing sand with fertilizer or humates with a porous ceramic to increase CEC ratio.

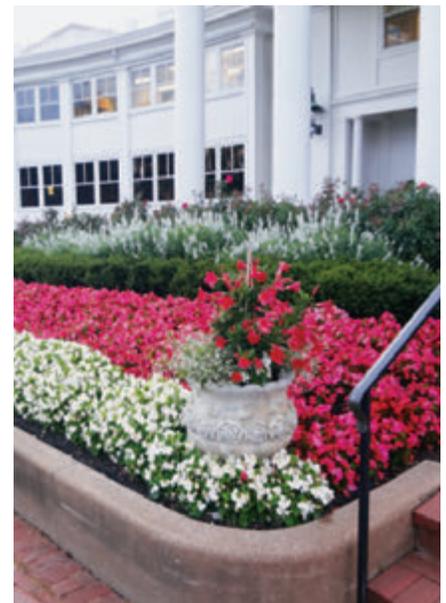

- **Fairway Topdressing** Washed and screened (no stones) firm sand that helps course sustainability
- **Topdressing Sand** Meets USGA guidelines (available in green pigmented)
- **Tournament Topdressing** A special fine grade for the bentgrass varieties. Not intended for regular use
- **Topdressing Sand/Peat Mix** 50/50, 60/40, 70/30, 80/20, 85/15 or 90/10
- **Topdressing Sand/Peat/Black Dirt Mix** 1-1-1, 60/20/20 or 80/10/10

HORTICULTURAL PRODUCTS

Plaisted horticultural mixes are like no other. They contain highly sought after ingredients, including composted pine bark, organic peat and screened black dirt. It's about better plant survival, plant growth, flowering and less plant maintenance.

Plaisted garden mixes effectively collect water from pervious and impervious surfaces while filtering out sediment and pollutants. Garden mixes also store water for the short term to be used by plants and permit clean water to infiltrate the soil and subsoil slowly, thus recharging the ground water.

We also offer **soil amendments** that can be mixed with existing soils, turning hard compact clay into loose soil so roots can grow. And for sandy environments, adding screened soil helps to slow water from running through the sand.

PLAISTED BUNKER SANDS

Our bunker sands are always washed and screened. Choose from the following:

- **Plaisted Bunker Sand** – natural tan, meets USGA guidelines with a 2.2 pentrometer index
- **Plaisted Pro Bunker Sand Blend** – natural tan sand blended with our crushed sand for a 2.8 pentrometer index, meets USGA guidelines. Also meets the requirements of ASTM F1292-17 at an 8-ft impact height when tested at 18-inch compacted depth.
- **Best Signature Tour Blend** – off-white in color, firm, 3.0 pentrometer index
- **Best Signature 100% Crushed** – white, very firm with a 3.6 pentrometer index

BAGGED PRODUCTS

The following products are available in 40 lb. bags. We can also bag sand in 1,000 to 2,000 lb. totes—a convenient way to store product, plus keeps product dry and easier to use.

- **Dry Topdressing Sand** – an easy way to lightly topdress greens
- **Dry Tournament Topdressing** – a topdress for modern bentgrasses during warm months
- **Dry Green Topdressing Sand** – this pigmented sand is used for divots and ball marks
- **Dry Early-Green Black Topdressing Sand** – for thawing ice and warming the soil
- **Dry 70/30 Green Divot Mix** – peat added for holding moisture

LANDSCAPE MULCH & ROCK

We carry 8 varieties of landscape mulch that add a clean finishing touch to landscape projects. Select from 11 varieties of landscape rock, including: granite, quartz, limestone, slate trap and Minnesota mahogany.

Plaisted boulders are ideal for erosion control, landscaping, retaining walls, decorative ponds, plus pond/creek bed lining. We carry 2" rock up to 24" boulders. Pea gravel offers an easy, affordable way to create a patio, fire ring, or walkway.

Golf Construction Sand Mixes

All use USGA sand and a combination of fine grade peat and screened black dirt. Choose one of our popular mixes, or we can custom blend your own mix.

USGA Coarse Gravel: A great bridging rock (3/8" minus), used as a drainage layer for the root-zone mix

Construction Sand & Peat Mixes: 50/50, 60/40, 70/30, 80/20, 85/15, 90/10

Construction Sand & Black Dirt Mixes: 50/50, 70/30, 80/20

Construction Sand/Peat/Black Dirt Mixes: 1-1-1, 60/20/20, 70/20/10, 80/10/10

Cart Path & Road Base

Fines river rock, 3/8"

Class II buff limestone or red rock;
Class II, III, IV crushed granite

Class 5 gravel

Recycled product: concrete, crushed asphalt, conbit (concrete & asphalt)

PLAISTED ACCUBLENDER™

It's all about precise measurement and blending. With our creation of the Accublander in 1995, customers' requests for a consistent quality soil was answered. Select from one of our standard mixes, or have us custom blend a mix by specifying the percentage of each product wanted in the mix.

Each ingredient is put into a separate bin then ingredients are precisely fed onto the Accublander belt, layering one on top of the other. As they fall through special screens and paddles, the ingredients are blended together creating a consistent product, load after load.

The Accublander™ 4 can blend up to four components and has an optional fertilizer bin. It precisely blends up to 2,500 tons of material a day.

The Accublander™ 2 is a portable two-bin blender capable of blending up to 2,500 tons of material a day on your site. This is ideal for locations where acceptable materials are available to blend and there is sufficient space.

Quality materials, readily available.

In addition to owning two mining operations, Plaisted owns peat farms in McGregor and Cromwell, MN and hosts compost operations on our Elk River property. Both these business are a vital source of components for our specialty blends.

Consistent quality. Reliable delivery.

Ongoing research and development, and our team of market specialists are behind our continued growth. They can help you determine the best blends for your application.

Our experienced drivers, fleet of 45 trucks, and our GPS locator help set the standard for the most responsive delivery system in the 5-state area.

Our Pledge

Customer satisfaction or we'll make it right.
