

## Plaisted's Greenhouse Mix

**Plaisted's Greenhouse Mix** consists of composted pine bark, coarse fibrous Peat, Inc. peat, coarse perlite, compost, lime and starter fertilizer. The composted pine bark creates air space and allows water to the root system. The coarse fibrous peat allows maximum water holding capacity and helps retain nutrients for the plant. Perlite is very light, helps create air space and has good water retention properties.

*Bulk or bag delivery*

**Plaisted's Greenhouse Mix** is comprised of Plaisted's Composted Pine Bark, Peat, Inc. fibrous coarse peat, coarse perlite, compost, lime and starter fertilizer. This mix has been created using Plaisted's computerized Accublender™ to assure a consistent product load after load.

### Our Pledge

We deliver on our promise or we will make it right.

### Consistent quality, reliable delivery.

Our four-bin Accublender™ is used to create these popular mixes. It features a computerized blender with an

on-board screen deck that removes oversized particles and a mechanical paddle wheel that ensures uniformity. It automatically adjusts for flow rates of material and stops the conveyor belt when feed bins need to be replenished.
