SOIL EXPERTS**

TOPDRESSING SANDS & MIXES

Choose from any of our standard topdressing sands or create your own mix. Plaisted topdressing sands meet USGA guidelines and are available dyed green and can be dried to meet your specifications. We can blend any combination of materials to meet your individual needs.

- **Fairway Topdressing** Washed and screened (no stones) firm sand that helps course sustainability
- **Topdressing Sand** Meets USGA guidelines (available dyed green)
- **Tournament Topdressing** A special fine grade for the bentgrass varieties. Not intended for regular use
- **Topdressing Sand/Peat Mix** 50/50, 60/40, 70/30, 80/20, 85/15 or 90/10
- **Topdressing Sand/Peat/Black Dirt Mix** 1-1-1, 60/20/20 or 80/10/10

BAGGED PRODUCTS

The following products are available in 40 lb bags. We can also bag sand in 1,000 to 2,000 lb. totes - a convenient way to store product in addition to keeping it dry and easier to use.

- **Dry Topdressing Sand** This provides an easy way to topdress greens
- **Dry Tournament Topdressing** This provides a topdress for modern bentgrasses during warm months
- **Dry Green Topdressing Sand** This pigmented sand is used for divots and ball marks.
- **Dry Early-Green Topdressing Sand** This is ideal for thawing ice and warming the soil
- **Dry 70/30 Green Divot Mix** This mix has peat added for holding moisture

BUNKER SANDS

We offer a range of bunker sands to suit different needs and preferences. Our sands meet USGA specifications and have been used in some of the finest championship courses in America.

- USGA Spec Bunker Sand** This sand is tan in color and provides excellent drainage, stability and playability. This sand is ideal for courses that need to be budget conscious but still seek high performance.
- Signature 700 Tour Blend** This off-white bunker sand is known for its superior quality and aesthetic appeal. It's specially blended to provide the best performance and appearance.
- Signature 900 100% Crushed** This 100% crushed white bunker sand is designed for top tier performance, offering excellent drainage and compaction resistance. This sand is not stocked but available upon request.
- Pro 100% Crushed** This sand from our reserves is crushed on-site. It offers premium performance and stands up to heavy use. It is tan in color.
- Granite Crushed Sand** This gray bunker sand is 100% crushed granite, offering excellent stability and a distinctive look. It is perfect for courses seeking a unique and durable bunker sand.

GOLF CONSTRUCTION SAND MIXES

All of our construction sand mixes use USGA and combination of fine peat and screened black dirt. Choose one of our mixes or we can custom blend.

USGA Course Gravel	A great bridging rock (3/8" minus) used as a drainage layer for the root zone mix.
Construction Sand & Peat Mixes	50/50, 60/40, 70/30, 80/20, 85/15, 90/10
Construction Sand & Black Dirt Mixes	50/50, 70/30, 80/20
Construction Sand, Peat & Black Dirt Mixes	1-1-1, 60/20/20, 70/20/10

CART PATH & ROAD BASE

We have all of the materials you need to help create durable cart paths and road ways.

Fines river rock, 3/8"

**Class II buff limestone or red rock;
Class I, III, IV crushed granite**

Class 5 gravel

Recycled product: concrete, crushed asphalt, conbit

LANDSCAPE MULCH & ROCK

We carry 10 varieties of landscape mulch that add a clean finishing touch to landscape projects. Select from 11 varieties of landscape rock, including: granite, quartz, limestone, slate trap and Minnesota mahogany.

Plaisted boulders are ideal for erosion control, landscaping, retaining walls, decorative ponds, plus pond/creek bed lining. We carry 2" up to 24" sizing options.

HORTICULTURAL PRODUCTS

Plaisted horticulture mixes are like no other. They contain highly sought after ingredients, including composted pine bark, organic peat and screened black dirt. It's about better plant survival, plant growth, flowering and less plant maintenance. Use products trusted by the top greenhouses and nurseries in the region.
